

2025 PRODUCT CATALOG

Welcome!

Hello! At Circle Y, we started as a small husband-and-wife operation. Before long, our business grew, leading to an expanded shop, additional equipment, and a dedicated team of employees. We are grateful for the opportunity to grow our business in northwest Tennessee while building strong relationships with our customers—where a friendly handshake and word-of-mouth still mean everything. We remain open to new ideas and improvements to serve you better in the future.

Quality is our top priority. That's why we reinforce our furniture with aluminum bracing and assemble it using 316 marine-grade stainless steel fasteners, ensuring durability for years to come.

So, grab your favorite beverage, find a comfortable chair, and take your time browsing this catalog. Whether you're looking for the perfect glider, a stylish patio set, or furniture for your yard, porch, or boat dock, we have something to fit your space beautifully.

Thank you for considering Circle Y Poly Furniture. Enjoy!

WHAT IS POLY?

Poly—it's a topic we're always happy to discuss! Poly is a durable material made from recycled HDPE (high-density polyethylene) plastics. The raw material is thoroughly cleaned and sorted before being processed through an extruder, where it is melted down, color is added, and it is shaped into poly lumber.

Environmentally friendly and sustainable, poly lumber consists of over 99% purified HDPE, which undergoes a rigorous decontamination process before being compounded into solid board stock material.

BUILT TO LAST

- **Will Not Deteriorate**

Poly offers exceptional resistance to moisture, termites, insects, splintering, warping, and other environmental hazards.

- **Retains a Vibrant Look**

With high color stability and UV-resistant pigments, poly lumber minimizes material breakdown from prolonged sun and weather exposure. It requires no waterproofing, staining, or extensive maintenance—just occasional cleaning with mild soap and water.

Our furniture is built for all-season use, providing durability and comfort throughout the year.

Warranty

WARRANTY INFORMATION

Circle Y Poly Furniture offers a limited warranty of 15 years for residential use and 5 years for commercial use.

The warranty begins on the date of purchase. At its discretion, Circle Y will repair or replace the product at no charge if it is used under normal conditions.

The poly material used in Circle Y furniture contains UV stabilizers to enhance resistance to fading; however, it is not completely impervious to color changes. Discoloration or staining caused by sunlight, environmental factors, or foreign substances is not covered under this warranty. Additionally, minor expansion and contraction due to humidity and temperature changes are normal and not considered defects in materials or workmanship.

Stainless steel fasteners are warranted against structural failure for the duration of the applicable warranty period. However, stainless steel may develop rust in extreme conditions—such as coastal or saltwater pool areas—if not properly maintained (see Caring for Poly – Page 36).

Polyethylene is a synthetic material and may scratch. This warranty does not cover scratches or surface damage to polyethylene.

WHEN ORDERING

Please be sure to list the base color first, followed by the seat and back color. Then specify (with accent) or (no accent).

Our accent includes the 2nd and 4th slats on the seat, and the outside boards on the fan back are the same color as the base.

Our standard furniture is accented. Be sure to specify **with accent** or **no accent** when ordering.

There is no charge to mix and match any color combinations, but keep in mind—the more color customizations, the more details to manage when placing your order.

SWING-OUT CUPHOLDERS

Swing-out cupholders are a convenient addition to gliders and rockers, allowing you to easily set down your favorite beverage while you relax. They swing smoothly in and out, so you can glide or rock without interruption.

On swings, recliners, lounge chairs, Adirondack chairs, and patio chairs, swing-out cupholders can be installed only in “out position”—and they work great in those spots as well.

Optional center consoles are also available and include our Knotch Cupholder.

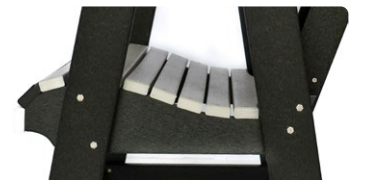

In Position

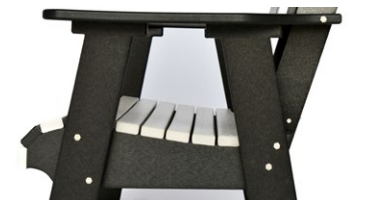

Out Position

DINING SEAT

The dining seat option provides a more upright sitting position, making it easier to sit comfortably at a table and enjoy your meal. This option is available on all Adirondack patio chairs and must be specified when ordering.

Regular Seat

Dining Seat

SPRINGS FOR SWINGS

Add springs to the top of your swing chains for a smoother, more comfortable ride—you'll notice the difference!

Spring

Color Chart

CARING FOR POLY FURNITURE

To keep your poly furniture looking its best, simply clean it regularly with mild soap, water, and a soft cloth or soft-bristle brush. Avoid using high-pressure washers, as they may damage the surface.

Lighter colors, such as white, may require more frequent cleaning.

The stainless steel fasteners used in your furniture are virtually maintenance-free under normal conditions. (We use high-quality 316 marine-grade stainless steel fasteners. While this is a premium material, it can still be susceptible to corrosion in extreme environments, such as coastal or poolside areas with constant saltwater exposure.) In these environments, we recommend rinsing your furniture with fresh water regularly.

Avoid using harsh chemicals or abrasive cleaners.

Also note: flower pots or containers left on the furniture for extended periods may cause staining.

By following these simple care tips, you'll enjoy the beauty and comfort of your poly furniture for many years to come.

Top Color Combinations

We offer a great selection of 19 vibrant colors, and the best part—you can mix and match any combination. With over 342 possible color combinations, the options are nearly endless.

Relax.
